INDEX TO VOLUME 26

Subject Index

Abortion

Abortion and Subsequent Fertility, Update, p. 3.

Abortion Funding Cutoff Will Likely Cost Michigan Far More Than It Saves, Digest, p. 92.

Abortion Services in the United States, 1991 and 1992, S. K. Henshaw and J. Van Vort, p. 100.

Abortion Services Under National Health Insurance: The Examples of England and France, Viewpoint, S. K. Henshaw, p. 87.

Civil Rights Struggle Over Human Reproduction, see **Law and Policy.**

Cook County Abortions OK'd, Update, p. 99.

Effects of Mandatory Delay Laws on Abortion Patients and Providers, The, F. A. Althaus and S. K. Henshaw, p. 228; correction, p. 269.

How the Public Views Abortion, Update, p. 245.

Is Less Mifepristone Just as Good? Update, p. 2.

Let the Trials Begin! Update, p. 244.

Maternal Mortality Related to Induced Abortion in North Carolina: A Historical Study, Research Note, R. E. Meyer and P. A. Buescher, p. 179.

Medical Abortion for Foreigners, Update, p. 99.

Medical Abortion: Nurses' Views, Update, p. 147.

Not All Want Medical Abortion, Update, p. 50.

Relationship Between Childbearing Motivations and Attitude Toward Abortion Among Married Men and Women, The, W. B. Miller, p. 165.

Trends in Induced Abortion During the 12 Years Since Legalization in Norway, F. E. Skjeldestad and J.-K. Borgan, p. 73.

U. S. Views on Health Plan Options, see **Public Opinion**.

Barrier Methods

As Adolescent Males Age, Risky Behavior Rises but Condom Use Decreases, see **Teenagers.**

Comparative Contraceptive Efficacy of the Female Condom and Other Barrier Methods, J. Trussell, K. Sturgen, J. Strickler and R. Dominik, p. 66.

Condom Breakage and Slippage Among Men in the United States, W. R. Grady and K. Tanfer, p. 107.

Condom Breaks and Slips Occur More Often Among Less Experienced Users, Digest, p. 283.

Condom Use With Other Woman, Update, p. 51.

Consistent Condom Use Greatly Lessens Heterosexual Transmission of the Human Immunodeficiency Virus, Digest, p. 278.

Dynamics of Young Men's Condom Use During and Across Relationships, The, L. Ku, F. L. Sonenstein and J. H. Pleck, p. 246.

Low-Cost Condom Plan Fails, Update, p. 148.

Most Adults in the United States Who Have Multiple Sexual Partners Do Not Use Condoms Consistently, Digest, p. 42.

Not Enough Two-Method Users, see **Contraceptive Practice**.

Peer Factors in Sex, Condom Use, see **Contraceptive Practice**.

Sexual Risk Behavior and Condom Use Among Street Youth in Hollywood, see **Teenagers**.

Use of Spermicide Containing Nonoxynol-9 Provides Substantial Protection Against Gonorrheal Infection, see **Sexually Transmitted Diseases**.

Who Doesn't Trust Condoms? Update, p. 245.

Contraception: General

More Than You'll Ever Know, Book Review of: *Contraceptive Technology, 16th Revised Edition*, R. A. Hatcher, J. Trussell, F. Stewart, G. K. Stewart, D. Kowal, F. Guest, W. Cates, Jr., and M. S. Policar. Rev. by P. G. Stubblefield, p. 232.

Most British Women Use Reliable Contraceptive Methods, but Many Fear Health Risks from Use, Digest, p. 183.

Contraceptive Practice

Calendar vs. Cervical Mucus, The, Letter, J. Sreenivasan, p. 135.

Characteristics Associated with Contraceptive Use Among Adolescent Females in School-Based Family Planning Programs, see **Teenagers.**

Contraceptive Use and Repeat Pregnancies Among Welfare-Dependent Teenage Mothers, see **Teenagers**.

Decline in Fertility Among Japanese Women Attributed Not to Contraceptive Use but to Late Age at Marriage, see **Fertility: Planning and Effects.**

Not Enough Two-Method Users, Update, p. 196.

Peer Factors in Sex, Condom Use, Update, p. 197.

Role of Men in Contraceptive Decision-Making: Current Knowledge and Future Implications, The, see **Males**.

Young Unmarried Men and Women Discuss Men's Role in Contraceptive Practice, D. J. Landry and T. M. Camelo, p. 222.

Evaluation of Programs

Availability and Accessibility of the Contraceptive Implant from Family Planning Agencies in the United States, 1991–1992, The, see **Hormonal Implants and Injectables.**

Content and Context of Sexuality Education: An Exploratory Study in One State, The, see **Sex Education.**

Evaluating Teenage Pregnancy Prevention and Other Social Programs: Ten Stages of Program Assessment, Comment, J. L. Peterson, J. J. Card, M. B. Eisen and B. Sherman-Williams, p. 116.

Experimental Prenatal Care Program Reduced Preterm Deliveries by 20%, Saved $1,800 per High-Risk Woman, Digest, p. 280.

Lessons From a Repeat Pregnancy Prevention Program for Hispanic Teenage Mothers in East Los Angeles, see **Teenagers.**

Literacy of Women Attending Family Planning Clinics in Virginia and Reading Levels of Brochures on HIV Prevention, see **Sexually Transmitted Diseases.**

Public Funding and Policies for Provision of the Contraceptive Implant, Fiscal Year 1992, see **Hormonal Implants and Injectables.**

Reducing Adolescent Pregnancy Through a School- and Community-Based Intervention: Denmark, South Carolina, Revisited, see **Teenagers**.

Fertility: Planning and Effects

Changes in the Planning Status of Births to Ever-Married U. S. Women, 1982–1988, Research Note, L. B. Williams and K. A. London, p. 121.

Decline in Fertility Among Japanese Women Attributed Not to Contraceptive Use but to Late Age at Marriage, Digest, p. 137.

Determinants of Couple Agreement in U. S. Fertility Decisions, L. B. Williams, p. 169.

In Vitro Bankruptcy, Update, p. 197.

U. S. Birthrate Decreased in 1991, but Nonmarital Fertility Continued to Rise, Digest, p. 43.

Government Policy, Programming and Funding

Availability and Accessibility of the Contraceptive Implant from Family Planning Agencies in the United States, 1991–1992, The, see **Hormonal Implants and Injectables.**

Clinton Health Plan: What Does It Do for Reproductive Health Services? The, Viewpoint, J. I. Rosoff, p. 39.

Family Planning Agencies: Services, Policies and Funding, S. K. Henshaw and A. Torres, p. 52; correction, p. 191.

Impact of the Medicaid Eligibility Expansions on Coverage of Deliveries, Research Note, S. Singh, R. B. Gold and J. J. Frost, p. 31.

More Inclusive Research, Update, p. 146.

Political History of the National Sex Survey of Adults, A, Viewpoint, E. O. Laumann, R. T. Michael and J. H. Gagnon, p. 34.

Public Funding and Policies for Provision of the Contraceptive Implant, Fiscal Year 1992, see **Hormonal Implants and Injectables.**

Hormonal Implants and Injectables

Adolescents and Adults Have Similar Experiences with Hormonal Implant, see **Teenagers**.

Availability and Accessibility of the Contraceptive Implant from Family Planning Agencies in the United States, 1991–1992, The, J. J. Frost, p. 4.

Implant: Year One, The, Update, p. 2.

Knowledge, Attitudes and Intentions of American Women Regarding the Hormonal Implant, K. Tanfer, p. 60.

Legal Troubles for Implant Maker, Update, p. 196.

Not Enough Two-Method Users, see **Contraceptive Practice**.

Providers' Views and Implant Use, Update, p. 245.

Public Funding and Policies for Provision of the Contraceptive Implant, Fiscal Year 1992, L. Kaeser, p. 11.

Tool for Easier Implant Removal, Update, p. 50.

Intrauterine Devices

FDA: IUD Effective for 10 Years, Update, p. 244.

Hormonal IUD Has Five-Year Life, Update, p. 51.

Hormonal IUD Users Experience Fewer Side Effects and Pregnancy Rates as Low as Copper IUD Users, Digest, p. 138.

Law and Policy

Cairo Consensus: Population, Development and Women, The, Special Report, S. A. Cohen and C. L. Richards, p. 272.

Civil Rights Struggle Over Human Reproduction, The, Book Review of: *Liberty and Sexuality: The Right to Privacy and the Making of Roe* v. *Wade*, D. J. Garrow. Rev. by R. A. Charo, p. 181.

Effects of Mandatory Delay Laws on Abortion Patients and Providers, The, see **Abortion**.

Legal Troubles for Implant Maker, see **Hormonal Implants and Injectables**.

Males

Age at Which Young Men Initiate Intercourse Is Tied to Sex Education and Mother's Presence in the Home, see **Teenagers**.

As Adolescent Males Age, Risky Behavior Rises but Condom Use Decreases, see **Teenagers**.

Circumcision's Protective Effect, see **Sexually Transmitted Diseases**.

Condom Breakage and Slippage Among Men in the United States, see **Barrier Methods**.

Condom Use With Other Woman, see **Barrier Methods**.

Do Cigarettes Smoke Out Sperm? see **Reproductive Health**.

Dynamics of Young Men's Condom Use During and Across Relationships, The, see **Barrier Methods**.

Hormones vs. Religion, Update, p. 146.

No-Sperm Vasectomy Failure, The, Update, p. 196.

Role of Men in Contraceptive Decision-Making: Current Knowledge and Future Implications, The, Special Report, S. Edwards, p. 77.

Young Unmarried Men and Women Discuss Men's Role in Contraceptive Practice, see **Contraceptive Practice.**

Marriage and the Family

Determinants of Couple Agreement in U.S. Fertility Decisions, see **Fertility: Planning and Effects.**

One in Four Preschoolers with Working Mothers Attend Day Care Facilities, Digest, p. 238.

Relationship Between Childbearing Motivations and Attitude Toward Abortion Among Married Men and Women, The, see **Abortion.**

Rising Ranks of the Unmarried, Update, p. 245.

Single-Parent Kids Lag in School, Update, p. 99.

Maternal and Child Health

Birth Weight and Intelligence, Update, p. 244.

Elimination of Low Birth Weight in Puerto Rico Has the Potential to Prevent 60% of Infant Deaths, Digest, p. 91.

Limits to Viability, Update, p. 2.

Maternal Marital Status as a Risk Factor for Infant Mortality, T. Bennett, P. Braveman, S. Egerter and J. L. Kiely, p. 252.

Maternal Mortality Related to Induced Abortion in North Carolina: A Historical Study, see **Abortion.**

Mother-Child HIV Transmission, see **Sexually Transmitted Diseases.**

Prenatal Exposure to Tobacco, Alcohol or Other Drugs Found for More Than One in 10 California Newborns, Digest, p. 95.

Receiving Recommended Prenatal Health Advice Can Increase Birth Weight, see **Pregnancy and Childbirth.**

Risk of Low Birth Weight Higher for U.S.-Born Than For Foreign-Born Hispanics, see **Pregnancy and Childbirth.**

Oral Contraceptives

Ovarian Cancer and Pill Use, Update, p. 146.

Pill Does Not Injure Gallbladder, Update, p. 197.

Pill Users May Experience Elevated Risk of Crohn's Disease, Ulcerative Colitis, Digest, p. 281.

Pill's Extended Cancer Protection, Update, p. 3.

Reduced Ovarian Cancer Risk Quantified Among Women Who Use the Pill, Digest, p. 143.

Silent Thromboembolism, The, Update, p. 2.

To Use or Not Use Combined Hormonal Oral Contraceptives During Lactation, Comment, P. C. Erwin, p. 26.

Women's Views on Pill Improve, Update. p. 98.

Postcoital Contraception

How Frequently Is Emergency Contraception Prescribed? Research Note, R. A. Grossman and B. D. Grossman, p. 270.

Pregnancy and Childbirth

Bacteria Promote Preterm Delivery, Update, p. 148.

Cesarean Delivery Cuts HIV Risk, Update, p. 197.

Daily Dose of Aspirin in Pregnancy Appears to Be Ineffective in Preventing or Treating Preeclampsia, Digest, p. 239.

Drug Cuts Fetal HIV Infection, see **Sexually Transmitted Diseases**.

Experimental Prenatal Care Program Reduced Preterm Deliveries by 20%, Saved $1,800 per High-Risk Woman, see **Evaluation of Programs**.

Hepatitis C in Pregnancy, Update, p. 3.

Labor Induction with Mifepristone, Update, p. 197.

Perinatal and Maternal Outcomes Not Improved by Routine Ultrasound, Digest, p. 47.

Physical Abuse During Pregnancy, Update, p. 196.

Previous Cesarean Delivery and Abnormal Labor Are Main Factors in High U.S. Cesarean Section Rate, Digest, p. 186.

Race and Pregnancy Recognition, Update, p. 146.

Racial Shortfalls in Prenatal Care, Update, p. 98.

Receiving Recommended Prenatal Health Advice Can Increase Birth Weight, Digest, p. 187.

Risk of Low Birth Weight Higher for U.S.-Born Than For Foreign-Born Hispanics, Digest, p. 189.

STDs Leading Cause of Ectopics, see **Sexually Transmitted Diseases**.

Urinary Tract Infection During Pregnancy Tied to Premature Delivery, Digest, p. 185.

Vaginal Delivery After Cesarean Is Successful Nearly 75% of the Time, Digest, p. 240.

Vitamins Inhibit HIV Transmission, see **Sexually Transmitted Diseases**.

Why So Many Repeat Cesareans? Update, p. 147.

Public Opinion

How the Public Views Abortion, see **Abortion**.

U.S. Views on Health Plan Options, Update, p. 146.

Reproductive Health

Breast's Own Cancer Protection, Update, p. 50.

Characteristics Associated with Impaired Fecundity in the United States, L. S. Wilcox and W. D. Mosher, p. 218.

Do Cigarettes Smoke Out Sperm? Update, p. 99.

Hysterectomy, Nonsurgical Management Both Lessen Fibroids, Pain and Bleeding, Digest, p. 190.

Morbidity and Mortality After Hysterectomy Show Large Difference by Race, Digest, p. 96.

Ovarian Cancer and Pill Use, see **Oral Contraceptives.**

Pill's Extended Cancer Protection, see **Oral Contraceptives**.

Reduced Ovarian Cancer Risk Quantified Among Women Who Use the Pill, see **Oral Contraceptives**.

Reproductive Health and AIDS-Related Services for Women: How Well Are They Integrated? D. Daley, p. 264.

Women Who Have Undergone a Tubal Sterilization Have a Reduced Risk of Contracting Ovarian Cancer, see **Sterilization**.

Service Providers

Abortion Services in the United States, 1991 and 1992, see **Abortion.**

Availability and Accessibility of the Contraceptive Implant from Family Planning Agencies in the United States, 1991–1992, see **Hormonal Implants and Injectables.**

Family Planning Agencies: Services, Policies and Funding, see **Government Policy, Programming and Funding.**

History and Features of the Wisconsin *Chlamydia trachomatis* Control Program, see **Sexually Transmitted Diseases.**

Public Funding and Policies for Provision of the Contraceptive Implant, Fiscal Year 1992, see **Hormonal Implants and Injectables.**

Sex Education

Age at Which Young Men Initiate Intercourse Is Tied to Sex Education and Mother's Presence in the Home, see **Teenagers**.

Content and Context of Sexuality Education: An Exploratory Study in One State, The, Special Report, W. A. Firestone, p. 125.

Course on AIDS Changed Behavior and Attitudes of High School Students, see **Teenagers**.

Sexual Behavior

Age at Which Young Men Initiate Intercourse Is Tied to Sex Education and Mother's Presence in the Home, see **Teenagers**.

AIDS Threat Leads Some U.S. Women to Change Their Sexual Behavior, see **Sexually Transmitted Diseases**.

Alcohol Abusers Face HIV Risk, see **Sexually Transmitted Diseases.**

As Adolescent Males Age, Risky Behavior Rises but Condom Use Decreases, see **Teenagers**.

Behavior Change and AIDS, Update, p. 2.

Course on AIDS Changed Behavior and Attitudes of High School Students, see **Teenagers**.

Having Multiple Sexual Partners Is Linked to Age at First Sex and Birthplace, Digest, p. 235.

High School Students Who Use Drugs Are More Likely Than Nonusers to Engage in Risky Sexual Behavior, see **Teenagers**.

HIV Counseling, Testing Do Not Necessarily Change Women's Sexual Behavior, see **Sexually Transmitted Diseases**.

Hormones vs. Religion, see **Males.**

MDs Don't Ask About Risky Sex, Update, p. 51.

Most Adults in the United States Who Have Multiple Sexual Partners Do Not Use Condoms Consistently, see **Barrier Methods**.

Peer Factors in Sex, Condom Use, see **Contraceptive Practice**.

Proportion of High School Students Receiving AIDS Instruction Increases, While Risky Behavior Declines, see **Teenagers**.

Racial Differences in Early Coitus May Be Influenced by Neighborhood Context, Digest, p. 236.

Risk Factors for Teenage Sex, see **Teenagers.**

Sexual Risk Behavior and Condom Use Among Street Youth in Hollywood, see **Teenagers**.

Sexually Transmitted Diseases

AIDS Threat Leads Some U.S. Women to Change Their Sexual Behavior, Digest, p. 93.

AIDS Toll Keeps Growing, Update, p. 98.

Alcohol Abusers Face HIV Risk, Update, p. 147.

Anal Cancer Rates Rise Sharply, Update, p. 148.

As Adolescent Males Age, Risky Behavior Rises but Condom Use Decreases, see **Teenagers**.

Behavior Change and AIDS, see **Sexual Behavior**.

Cesarean Delivery Cuts HIV Risk, see **Pregnancy and Childbirth**.

Chlamydia's Share of Tubal Scars, Update, p. 51.

Circumcision's Protective Effect, Update, p. 99.

Confusion over HIV Infection, Update, p. 99.

Consistent Condom Use Greatly Lessens Heterosexual Transmission of the Human Immunodeficiency Virus, see **Barrier Methods**.

Course on AIDS Changed Behavior and Attitudes of High School Students, see **Teenagers**.

Drug Cuts Fetal HIV Infection, Update, p. 98.

History and Features of the Wisconsin *Chlamydia trachomatis* Control Program, Special Report, D. G. Addiss, M. L. Vaughn, S. D. Hillis, D. Ludka, L. Amsterdam and J. P. Davis, p. 83.

HIV Counseling, Testing Do Not Necessarily Change Women's Sexual Behavior, Digest, p. 282.

HIV, Syphilis a Formidable Team, Update, p. 147.

How Many Will Live with HIV? Update, p. 196.

Human Papillomavirus Infection Is Associated with Multiple Partners, Digest, p. 139.

Literacy of Women Attending Family Planning Clinics in Virginia and Reading Levels of Brochures on HIV Prevention, J. A. Wells, D. Ruscavage, B. Parker and L. McArthur, p. 113.

Many at Risk Not Tested for HIV, Update, p. 3.

More Americans Under 30 Are Planning to Be Tested For Infection with HIV, Digest, p. 184.

Most Adults in the United States Who Have Multiple Sexual Partners Do Not Use Condoms Consistently, see **Barrier Methods**.

Mother-Child HIV Transmission, Update, p. 148.

Not Enough Two-Method Users, see **Contraceptive Practice**.

Proportion of High School Students Receiving AIDS Instruction Increases, While Risky Behavior Declines, see **Teenagers**.

Reproductive Health and AIDS-Related Services for Women: How Well Are They Integrated? see **Reproductive Health**.

Sex, Alcohol and Sexually Transmitted Diseases: A National Survey, K. P. Ericksen and K. F. Trocki, p. 257.

Sexual Risk Behavior and Condom Use Among Street Youth in Hollywood, see **Teenagers**.

STDs Leading Cause of Ectopics, Update, p. 244.

Third of U.S. Women Have Had an HIV Test, Most at a Blood Bank, A, Digest, p. 140.

Use of Spermicide Containing Nonoxynol-9 Provides Substantial Protection Against Gonorrheal Infection, Digest, p. 234.

Vitamins Inhibit HIV Transmission, Update, p. 244.

Which Is More Important to High School Students: Preventing Pregnancy or Preventing AIDS? see **Teenagers.**

Sterilization

Both Biological and Motivational Factors May Play a Role in Higher Hysterectomy Risk After Sterilization, Digest, p. 44.

No-SpermVasectomy Failure, The, see **Males.**

Women Who Have Undergone a Tubal Sterilization Have a Reduced Risk of Contracting Ovarian Cancer, Digest, p. 90.

Teenagers

Addressing 'Gray' Areas in Teenage Pregnancy Debate, Book Review of: *Early Childbearing: Perspectives of Black Adolescents on Pregnancy, Abortion and Conception*, E. W. Freeman and K. Rickels. Rev. by G. L. Peak, p. 134.

Adolescents and Adults Have Similar Experiences with Hormonal Implant, Digest, p. 236.

Age at Which Young Men Initiate Intercourse Is Tied to Sex Education and Mother's Presence in the Home, Digest, p. 142.

As Adolescent Males Age, Risky Behavior Rises but Condom Use Decreases, Digest, p. 45.

Capturing Unobserved Heterogeneity in High School Completion Rates, Letter, J. Trussell, p. 135.

Characteristics Associated with Contraceptive Use Among Adolescent Females in School-Based Family Planning Programs, C. Brindis, S. Starbuck-Morales, A. L. Wolfe and V. McCarter, p. 160.

Contraceptive Use and Repeat Pregnancies Among Welfare-Dependent Teenage Mothers, R. Maynard and A. Rangarajan, p. 198.

Course on AIDS Changed Behavior and Attitudes of High School Students, Digest, p. 46.

Evaluating Teenage Pregnancy Prevention and Other Social Programs: Ten Stages of Program Assessment, see **Evaluation of Programs**.

High School Students Who Use Drugs Are More Likely Than Nonusers to Engage in Risky Sexual Behavior, Digest, p. 279.

Lessons From a Repeat Pregnancy Prevention Program for Hispanic Teenage Mothers in East Los Angeles, Comment, P. I. Erickson, p. 174.

More Thoughts on the Adolescent Pregnancy 'Problem,' Book Review of: *The Politics of Pregnancy: Adolescent Sexuality and Public Policy*, ed. by A. Lawson and D. Rhode. Rev. by L. S. Zabin, p. 132.

Peer Factors in Sex, Condom Use, see **Contraceptive Practice**.

Proportion of High School Students Receiving AIDS Instruction Increases, While Risky Behavior Declines, Digest, p. 144.

Reducing Adolescent Pregnancy Through a School- and Community-Based Intervention: Denmark, South Carolina, Revisited, H. P. Koo, G. H. Dunteman, C. George, Y. Green and M. Vincent, p. 206.

Risk Factors for Teenage Sex, Update, p. 147.

Sex and the Moving Teen, Update, p. 98.

Sexual Risk Behavior and Condom Use Among Street Youth in Hollywood, J. E. Anderson, T. E. Freese and J. N. Pennbridge, p. 22.

Subsequent Childbearing Among Teenage Mothers: The Determinants of a Closely Spaced Second Birth, D. S. Kalmuss and P. B. Namerow, p. 149.

Subsequent Risk of Childbearing Among Adolescents with a Negative Pregnancy Test, L. S. Zabin, V. Sedivy and M. R. Emerson, p. 212.

Teenage Childbearing and High School Completion: Accounting for Individual Heterogeneity, N. Ahn, p. 17.

Teenage Sex, Friends and Family, Update, p. 51.

Unwanted Sex Among the Young, Update, p. 50.

Which Is More Important to High School Students: Preventing Pregnancy or Preventing AIDS? L. M. Langer, R. S. Zimmerman and J. A. Katz, p. 154.
